## Professional Profile

Innovative and detail-oriented Front-End Developer with 5.7 years of experience building responsive, user-centric web applications. Skilled in JavaScript, TypeScript, HTML, CSS, and modern frameworks such as React and Angular. Strong problem-solving abilities with a focus on clean UI, performance optimization, and maintainable code. Experienced in collaborating with cross-functional teams to deliver high-quality digital products.

## Professional Experience

### Software Engineer — Impelsys Pvt Ltd, Bangalore, India

06/2019 – 12/2024

- Built responsive, high-performance UI components using HTML, CSS, JavaScript, TypeScript, React, and Angular.
- Translated UX wireframes into pixel-perfect, accessible interfaces in close collaboration with designers and backend teams.
- Improved application performance through lazy loading, code splitting, and optimized asset delivery.
- Ensured code quality through unit testing and debugging with Jest, Jasmine, Karma, and Chrome DevTools.
- Implemented Git-based workflows and CI/CD pipelines for efficient development and deployment.
- Led UI initiatives, mentored junior developers, and contributed to design system components for consistent user experiences.

## Skills

- Frontend: JavaScript, TypeScript, React, Angular, HTML5, CSS3, Redux, Next.js
- UI/UX: Storybook, Material UI, Tailwind CSS, Figma, UX/UI Design
- API & Integration: REST API, GraphQL
- Testing & Debugging: Jest, Jasmine, Karma, Chrome DevTools
- DevOps & Tools: Git, GitLab CI, CI/CD, Docker, AWS
- Methodologies: Agile (Scrum, Kanban)

**Languages:** English: Fluent (spoken and written), German: Limited (spoken and written)

## Projects

### Neonatal Resuscitation Program (NRP) Platform

Role: Front-End Developer

Technologies: Angular, HTML5, CSS3, Bootstrap, REST API, Git

- Built a responsive web application enabling healthcare practitioners to access neonatal resuscitation courses and certifications.
- Developed intuitive UI components to improve learning accessibility and engagement for medical professionals.

### Adaptive Learning Platform

Role: Front-End Developer

Technologies: React, TypeScript, HTML5, CSS3, Redux, REST API, Git, AWS

- Developed an adaptive learning platform allowing admins to create and manage custom courses using modular learning objects.
- Implemented user-centric interfaces for both course creators and learners, supporting course participation and progress tracking.

## Education

### Bachelor of Engineering (Computer Science & Engineering)

LBS College of Engineering, Kasaragod, India

07/2013 – 05/2017
